

Reflexive Autopoietic Systems Theory

A General Theory of Ultra-efficient Special Systems and a new view of the nature of Holonomics: An Introduction: 9

Systems And Meta-systems	9
Dissipative Complexnion Special Systems	42
Autopoietic Quaternionic Systems	51
Reflexive Octonionic Special Systems	55
Duality And The Kinds Of Being	66
Recursive Sedenion Meta-systems	69
Ultra-efficient Special Systems	71
Holonomics	73
Discovery	74
Acknowledgments	75

The Ontological Foundations Of Autopoietic Theory

A Tutorial: 78

The Foundations	
Introduction	78
Caveat	79
History	80
First Approximation	82
Sophist-ication	86
Ontological Difference	87
Pure Presence	88
A New Kind Of Being Arises	88
Biology And Physics In A New World.	90
Dynamism	92
Next Step Up -- Segmentation	93
Back To Biology	97
The Final Step	98
Breakup Of The Monolith	103
The Monolith Revisited	108
Functor	114

On The Social Construction Of Emergent Worlds

The Foundations Of Reflexive Autopoietic Systems Theory

Part 1: The Foundations: 121

Abstract	121
Keywords	121
Disciplines	121
Introduction To The General Theory Of Worlds	122
Overview	135

Emergent Ontological Levels	223
Cognitive Systematization	273
Chaotic Logic	276
Community As A Dialectical Whole	296
Worlding The World	301
Acknowledgment	306
Bibliography	307

On The Social Construction Of Emergent Worlds

The Foundations Of Reflexive Autopoietic Systems Theory

Part 2: Reflexive Autopoietic Systems Theory: 309

Abstract	309
Keywords	309
Disciplines	309
Introduction	310
Architectonic	312
A Point Of Departure	319
Worldmaking	334
Stage One	348
Stage Two	368
Stage Three	374
Stage Four	377
The Bifurcations Of The Matrix.	380
General Systems Theory	384
Stage Five	400
Stage Six	402
Stage Seven	403
Back To The Void	404
Matrix Logic	404
Social Machines And Computational Sociology	407
Artificial Intersubjective Simulation	412
Fifth And Sixth Dimensional Rings	414
Worlds Within Worlds	416
Reprise: Moving Through The Stages Yet Again	419

On The Social Construction Of Emergent Worlds

The Foundations Of Reflexive Autopoietic Systems Theory

Part 3: Chaotic Social Process Architecture: 479

Abstract	479
Keywords	479
Disciplines	479
Autopoietic Sociology And Sociology Of Gnosis	480
Chaotic Process Modeling	492

A Minimal Social Process Model	502
Actors And Groups	506
A Theory Of Work As Social Action	511
Macro Quantum Mechanics	518
Quality And Quantity	531
The Dynamic Of Consciousness	551
Presence	554
Realization	565
Processes Arising	567
Conclusion	572

Steps to the Threshold of the Social

Part 1: The Mathematical Analogies to Dissipative, Autopoietic, and Reflexive Systems: 579

Abstract	579
Keywords	580
Software Design Methods, Computability, And General Systems Theory	580
Disjunctions Between Continuities	583
Dissipative Systems	587
Autopoietic Systems	595
Reflexive/social Systems	611
Out Of Control	633
Kinds Of Being	636
Artificiality	647
Conclusion	651
Acknowledgments	652

Steps to the Threshold of the Social

Part 2: General and Special Systems Theories: Form, Pattern, Traces and Magician Systems: 655

Abstract	655
Keywords	655
Acknowledgments	655
Stages Of The Unfolding Of General Systems Theory And Beyond	656
Pattern And Form	660
Magicians And Special Systems Theory	666
Laws Of Form And Pattern	672
Meta-levels Of Difference	681
Ordering Of Patterns	685
Recursiveness Within The Laws Of Form And Pattern	689
Kinds Of Truth	698
Building Minimal Social Machines	702
Laws Of Pattern	711

General Magicians Theory 713
Conclusion 719

Steps to the Threshold of the Social

Part 3: Anti-Category theory, Annihilation Mosaics, Magician Constellations, and Mythic Foundations: 672

Abstract 726
Keywords 726
A Search For A Theory Of Annihilation 726
Anti-category Theory 731
Annihilation Mosaics 736
Magician Constellations 752
The Minimal Structure Of Magician Constellations 755
The Computational Basis Of Magician Constellations 764
Sociality Of Magician Constellations 770
The Orthogonality Of Magician Constellations From Gst 773
Norns And The Primal Scene 777
Fourfolds Embracing 781
An Unlikely Dialogue Between Milrepa And Parmenides. 791

Steps To The Threshold Of The Social

Part 4: Conjunction and Contradiction: 807

Introduction To The Problem Of Conjunction And Contradiction 807
Deriving The Greimas Square From Logic. 817
Unfolding The Greimas Square To Find The Special Systems. 822
Aufhebung 836
Where Does Synthesis Come From? 844
In The Magical Mirrorhouse 859
Timestreams 872
Information Mechanics 894
Non-duality In Learning Organizations And The Stairs To Nowhere 902
The Logical Nature Of The Social 936
Our Finitude 940
Epilogue 944
Acknowledgments: 947

Steps To The Threshold Of The Social

PART 5: Laws of Form and Pattern, Magician Meta-Systems, Matrix Logic, Special Systems Theory and Artificial Sociality: 951

The Problematic 951
Truth Values 953
An Implementation 961
Information Embeddings And The Laws Of Form 967

Laws Of Form And Pattern And The Ontological Fourfold	973
Magician Operators And The Four Aspects Of Laws Of Form/pattern	980
Magical Operators	986
Connections To Traditional Chinese Sciences	988
The Logico-mathematical Structure Of Interpenetrating Eventities	989
Non-dual And Dual Fourfolds	993
Phenomenology Of Emptiness	996
Cognition	1000
Social Nature Of Space And Time	1007
The Sedenion (Sedecimnion)	1017
Sameness/difference And Static/dynamic Couples	1027
Kinds Of Being In Relation To The Noumena.	1030
Return To The Quantum Model Of Consciousness	1035
Emergent Systems	1039
The Minimal System In Consciousness	1042
Matrix Logic And The Social	1044
Magician Construction	1045
Artificial Intersubjective Simulation	1049
The Best Of All Possible Worlds.	1049
The Articulation Of Ultra-efficient Consciousness.	1051

Steps To The Threshold Of The Social, Part Six

PART 6: Emergent Meta-Systems: 1056

Preliminary Sketch	1056
Non-duality	1092
Ontological Prerequisites	1120
Complementarities And The Polarity Of The Noumena And The Autopoietic Special System	1132
Complementarities And Emergent Meta-systems.	1141
Emergent Meta-systems And Systems And Software Methodologies	1152
A Definition Of Ems Components In Swarms.	1160
Mirroring Of The Emergent Meta-system	1166

Thinking The Unthinkable

Prelude to an Empirical Ontology: 1175

Synoptic View Of The Fourfold Of Being	1175
Hierarchies	1209
Kierkegaard	1231
Layered Agents	1242
Singularities In The Fourfold	1242
Meta-complementarity And Multi-complementarity.	1242
